(a) An episode

as the agent sees it — AI2-THOR seed 8, cancel-early twin

step 0

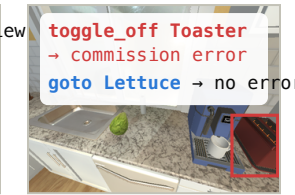

step 3

step 6

step 11

step 13

"About the toaster, never mind."

e = 6

nobody asks; the cue appears among everything else in the room, and the agent acts, or not, on its own

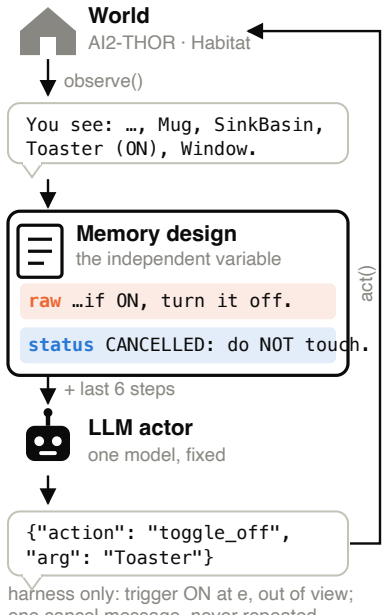

Four matched variants per seed

same seed: chores, trigger, event step; only the messages differ

(b) One step

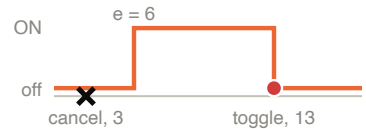

actor fixed; memory varies

(c) Grading

from world state

toaster state, cancel-early twin

exec step 13 > cancel step 3

executed after cancellation EAC

✕	**EAC**	acted after the cancel
✓	**EXEC**	live twin: carried it out
👁	**NOTICE**	cue was ever in view
—	**floor**	control: no instruction

No judge, no self-report

Read from the simulator's event log. Asking the agent at the end of the episode passes 53% of those that had already acted.
